

## Special Issue

# Linear Algebra: Matrix Theory, Graph Theory and Applications

### Message from the Guest Editor

We intend to launch a Special Issue of *Axioms*. The central topic of this Special Issue will be “Linear Algebra: Matrix Theory, Graph Theory and Applications”. We would like to provide an opportunity to showcase recent developments in both the Matrix Theory and Graph Theory, as well as their applications in different scientific or technological disciplines. In the Keywords section, you will find a list of possible topics, but this list is not exclusive. We hope to provide a platform to bring together experts, as well as young researchers, in the field to publish original research article.

---

### Guest Editor

Dr. Luis Medina

Departamento de Matemáticas, Facultad de Ciencias Básicas,  
Universidad de Antofagasta, Av Angamos 601, Antofagasta, Chile

---

### Deadline for manuscript submissions

closed (30 June 2022)

## About the Journal

### Message from the Editor-in-Chief

*Axioms* is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Humberto Bustince

Department of Statistics, Computer Science and Mathematics, Public  
University of Navarra, 31006 Pamplona, Spain

---

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High visibility:

indexed within SCIE (Web of Science), dblp, and other databases.

#### Journal Rank:

JCR - Q2 (Mathematics, Applied)
