

Topical Collection

Mathematical Analysis and Applications

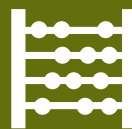

Message from the Collection Editor

Investigations involving the theory and applications of the mathematical analytic tools and techniques are remarkably widespread in many diverse areas of the mathematical, physical, chemical, engineering, and statistical sciences. In this Collection, we invite and welcome review, expository, and original research articles dealing with the recent advances in mathematical analysis and its multidisciplinary applications. Looking forward to your contribution to this Topical Collection, Cordially yours, Prof. Dr. H. M. Srivastava

About the Journal

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Humberto Bustince

Department of Statistics, Computer Science and Mathematics, Public
University of Navarra, 31006 Pamplona, Spain

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.
