# **Special Issue**

# Mathematical and Computational Applications

## Message from the Guest Editors

We invite you to submit your research to this Special Issue of *Axioms* on Mathematical and Computational Applications. We are looking for contributions in theory and applications on fuzzy differential equations, intelligent systems, fractional order systems, dynamical systems, control, numerical methods, modeling, and related fields. Including but not limited to the following area:

- fuzzy differential equations
- intelligent systems
- fractional order systems
- dynamical systems
- control
- numerical methods
- modeling
- bifurcations
- fractional order calculus and systems
- stability theory

### **Guest Editors**

Prof. Dr. Nohe R. Cazarez-Castro

Prof. Dr. Selene L. Cardenas-Maciel

Prof. Dr. Jorge A. Lopez-Renteria

### Deadline for manuscript submissions

closed (20 December 2022)

# About the Journal

### Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

### Editor-in-Chief

Prof. Dr. Humberto Bustince Department of Statistics, Computer Science and Mathematics, Public University of Navarra, 31006 Pamplona, Spain

### **Author Benefits**

### **Open Access**

- free for readers, with article processing charges (APC) paid by authors or their institutions.

### High visibility:

indexed within SCIE (Web of Science), dblp, and other databases.

## Journal Rank:

JCR - Q2 (Mathematics, Applied)
