Special Issue

Mathematics of the COVID-19

Message from the Guest Editors

COVID-19 remains a worldwide major concern and, since the beginning of this pandemic, mathematics has had an important role in its analysis and control. A wide range of mathematical tools can be used in order to understand, predict, and minimize the transmission dynamics of SARS-CoV-2. This Special Issue will include high-quality articles containing original research results and survey articles, including prospective discussion focusing on, but not limited to, mathematical models for COVID-19, optimization methods for COVID-19 mitigation and control, and application of mathematical tools on COVID-19, inspired by different areas of mathematics.

Guest Editors

Prof. Dr. Delfim F. M. Torres

Center for Research and Development in Mathematics and Applications (CIDMA), Department of Mathematics, University of Aveiro, 3810-193 Aveiro, Portugal

Dr. Cristiana João Soares da Silva

 Department of Mathematics, ISTA, Iscte-Instituto Universitário de Lisboa, Av. das Forças Armadas, 1649-026 Lisboa, Portugal

About the Journal

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of Axioms is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Humberto Bustince

Department of Statistics, Computer Science and Mathematics, Public University of Navarra, 31006 Pamplona, Spain

Author Benefits

Open Access

 free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility:

indexed within SCIE (Web of Science), dblp, and other databases.

Journal Rank:

JCR - Q2 (Mathematics, Applied)
