

## Special Issue

# High-Performance Lithium–Sulfur Batteries: Practical Issues and Future Prospects

### Message from the Guest Editors

This Special Issue will introduce new materials and processing techniques critical for commercializing Li–S batteries and exploring how such innovations can enhance device-level performance.

- Novel materials for Li–S batteries (electrodes, electrolytes, and separators);
- Advanced fabrication processes for Li–S cell assembly;
- Sulfurized polymer cathodes for improved cycle life;
- All-solid-state Li–S batteries.
- Degradation mechanisms in liquid- and solid-state Li–S battery systems.

---

### Guest Editors

Dr. Jinkwan Jung

Department of Chemical & Biomolecular Engineering, Korea Advanced Institute of Science and Technology, Daejeon 34141, Republic of Korea

Dr. Hyunwon Chu

Department of Materials Science and Engineering, Massachusetts Institute of Technology, Cambridge, MA 02139, USA

---

### Deadline for manuscript submissions

24 September 2026

## About the Journal

### Message from the Editor-in-Chief

Take the opportunity to publish your original scientific work or a review paper concerning battery materials, battery technology or battery application within this new open access journal. Along with material science, the journal also addresses engineering and multidisciplinary research topics, such as cell and system design or storage system integration. Publishing proffers visibility for the benefit of other experts and facilitates discussion of the research results within the field. You are invited to publish your work, read published papers and to participate in topical discussions.

---

### Editor-in-Chief

Prof. Dr. Karim Zaghib  
Department of Chemical and Materials Engineering, Concordia  
University, Montréal, QC H3G 1M8, Canada

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Electrochemistry) / CiteScore - Q1 (Electrical and Electronic Engineering)
