

## Special Issue

# Recent Advances of All-Solid-State Battery

### Message from the Guest Editors

The development of solid electrolytes and all-solid-state batteries (ASSBs) has sparked great attention, which could be a crucial technology for the success of forthcoming electronics and electric vehicles. However, solid electrolytes and all-solid-state batteries are hampered due to problematic contact issues at solid-solid interfaces and safety concerns. In addition, the all-solid-state batteries have shown dendrite growth, poor life cycle and energy densities owing to a lack of appropriate electrolyte materials with high ionic conductivity in comparison to liquid electrolytes.

---

### Guest Editors

Dr. Gražyna Simha Martynková

Nanotechnology Centre, CEET, VSB-Technical University of Ostrava, Ostrava Poruba, Czech Republic

Dr. Sara Pakseresht

Department of Chemistry and Materials Science, School of Chemical Engineering, Aalto University, Espoo, Finland

---

### Deadline for manuscript submissions

closed (16 June 2025)

## About the Journal

### Message from the Editor-in-Chief

Take the opportunity to publish your original scientific work or a review paper concerning battery materials, battery technology or battery application within this new open access journal. Along with material science, the journal also addresses engineering and multidisciplinary research topics, such as cell and system design or storage system integration. Publishing proffers visibility for the benefit of other experts and facilitates discussion of the research results within the field. You are invited to publish your work, read published papers and to participate in topical discussions.

---

### Editor-in-Chief

Prof. Dr. Karim Zaghib

Department of Chemical and Materials Engineering, Concordia  
University, Montréal, QC H3G 1M8, Canada

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Electrochemistry) / CiteScore - Q1 (Electrical and Electronic Engineering)
