

## Special Issue

# Progress in Next-Generation High Energy Density Batteries

### Message from the Guest Editor

Lithium-ion batteries have significantly dominated the energy storage market, ranging from portable electronics to electric vehicles ever since its inception. However, the limited energy density of existing Li-ion batteries remains at the forefront of developments, while alternative battery chemistries are progressing towards the realization of high-energy-density batteries. Therefore, it is necessary to provide an overview on the developments of various high-energy-density battery chemistries. This Special Issue aims to cover the latest progresses on high-energy-density Li-ion and beyond Li-ion battery chemistries.

### Guest Editor

Dr. Chenrayan Senthil

Department of Energy Engineering, Gyeongsang National University,  
Naedong-ro 139beon-gil, Jinju-si 52849, Gyeongsangnam-do, Republic  
of Korea

### Deadline for manuscript submissions

closed (15 June 2023)

## About the Journal

### Message from the Editor-in-Chief

Take the opportunity to publish your original scientific work or a review paper concerning battery materials, battery technology or battery application within this new open access journal. Along with material science, the journal also addresses engineering and multidisciplinary research topics, such as cell and system design or storage system integration. Publishing proffers visibility for the benefit of other experts and facilitates discussion of the research results within the field. You are invited to publish your work, read published papers and to participate in topical discussions.

---

### Editor-in-Chief

Prof. Dr. Karim Zaghib

Department of Chemical and Materials Engineering, Concordia  
University, Montréal, QC H3G 1M8, Canada

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Electrochemistry) / CiteScore - Q1 (Electrical and Electronic Engineering)
