Special Issue

Psychological Flexibility for Health and Wellbeing

Message from the Guest Editors

Psychological flexibility has been increasingly established as a fundamental aspect of human health and well-being. Across physical, psychological, and social domains, this capacity to fully contact a range of experiences and take action consistent with personal values seems to be central to the process of thriving. In offering a sound conceptualization of what it means to be psychologically well, psychological flexibility has been fully integrated into the scientific study of wellness. Psychological flexibility seems to be measurable, as a number of assessment approaches have been validated and shown to be useful. Psychological flexibility also seems to be manipulable, as intervention studies in educational, clinical, performance, community, and correctional settings demonstrate increases in flexibility along with many positive outcomes. This Special Issue invites authors to submit publications on the topic of psychological flexibility as it relates to health and wellbeing. Conceptual, empirical, assessment, and review papers are welcome, and we hope for contributions from a range of disciplines across the realm of behavioral sciences.

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: https://www.mdpi.com/journal/behavsci. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
