

Special Issue

Narrative Approaches and Practice in Health Psychology

Message from the Guest Editor

It is a pure delight to develop this Special Issue about narrative approaches and practices in health psychology. Narrative research often refers to a written or spoken account of events and contains specific elements as a story would. This can include characters and plots, but also a focus on language and meaning, for instance metaphor or discourse analysis. Narrative research provides an excellent way to explore personal experiences beyond the boundaries of other methodologies; it can provide fascinating insights to treatment, health practices, attitudes and behaviors. For instance, narrative and storytelling interventions have recently demonstrated great psycho-emotional value for people with chronic illness as part of behavior change approaches. [This Special Issue](#) is interested in receiving articles from scholars that focus and illuminate specific narrative approaches and methodologies. I welcome examples of specific approaches to narrative analysis and articles that review and consider specific narrative methodologies.

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, Embase, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 32 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
