Role of Recreation and Outdoor Activities in Promoting Mental Health and Positive Behaviors in People of All Ages

Message from the Guest Editors

Recreational activities in outdoor environments are of great interest to people of all ages—from children to older adults—across all countries. There is a rather large body of global literature that has contributed to a better understanding of how recreation and outdoor play activities improve mental health, provide a sense of psychological well-being, and encourage positive health-promoting behaviors regardless of an individual's lifespan status. This Special Issue, 'Role of Recreation and Outdoor Activities in Promoting Mental Health and Positive Behaviors in People of all Ages,' invites submissions of papers that broaden our understanding of how mental health, positive behaviors, and well-being can be enhanced through outdoor activities from a variety of perspectives: age (child through older adult); type of engagement (such as passive or active); intent (recreation, therapeutic, or community); outcomes (particularly related to mental, psychological, spiritual, or emotional health); theoretical or empirical research (quantitative, qualitative, or multiple methods).

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
