# Screen Time and Problematic Internet Use among Children and Adolescents—Impacts on Physical and Mental Health

# Message from the Guest Editor

The role of technology in the education of children and adolescents is undisputed. The benefits of technology in providing digital literacy training to children are innumerable. Excessive, and unsupervised screentime can contribute to unhealthy living habits, reduced physical activity, poor physical fitness, and associated health issues. Inappropriate screentime can also reduce social interactions, which can hamper social and emotional development. Research needs to understand the specific conditions that will promote digital literacy while also minimizing its potential risks. This Special Issue represents a unique perspective on problems associated with screentime and Internet use. The focus will be on the potential detrimental effects associated with excessive and unsupervised screentime. Authors worldwide are invited to submit high-quality papers for consideration. Papers based on original research, systematic reviews, and meta-analyses addressing issues of mental ill health and psychological well-being, biological and psychosocial risk and protective factors, and interventional programs associated specifically with screentime and internet use are welcome.

# **About the Journal**

# Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <a href="https://www.mdpi.com/journal/behavsci">https://www.mdpi.com/journal/behavsci</a>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

### **Editor-in-Chief**

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

#### **Author Benefits**

# **High Visibility:**

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

## **Journal Rank:**

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

# **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
