

## Special Issue

# Understanding Youth Knowledge, Behaviors and Conditions concerning Mental Health

### Message from the Guest Editors

This Special Issue in Behavioral Sciences will bring together research and practice, offering an opportunity to explore challenging contemporary concepts in the field of child, adolescent and young adult (up to 25 years) mental health and recovery. The Issue will focus on essential elements in the field, reflecting on themes related to youth mental health literacy and knowledge, conditions related to child and youth mental health, and epidemiological studies on key determinants of youth mental health. Essentially, we are looking at a broader scope of factors (parental, family, school, etc.) that shape child and youth mental health. Therefore, while studies with a focus on the individual/biological/personal level are welcome, we also invite those that are external to the person but which contribute significantly to their mental health.

### Guest Editors

Dr. Christine Grove

Dr. Ilaria Montagni

Dr. Joanne Riebschleger

### Deadline for manuscript submissions

closed (31 May 2024)

## About the Journal

### Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.
