The Impact of Psychosocial Factors on Health Behaviors

Message from the Guest Editor

There has been a lot of research investigating the prediction of psychological factors for health behaviors. The goal of these research studies must be to contribute to improving the health status in various populations by changing the psychological factors and thus health behaviors in a timely manner. However, this transition has not been very smooth since the relationship between psychological factors and health behavior or health behavior change is very complicated. Therefore, in this Special Issue of Behavioral Sciences, we welcome studies that successfully address these issues or limits, or imply potential solutions in the future, and that significantly expand the current level of understanding of the impact of cognitive, emotional, behavioral, and environmental factors on various health behaviors for improving the health status in populations. **Keywords** psychological factors
cognitive factors
emotional factors
health behavior
health seeking behavior

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
