

## Special Issue

# Adaptive Decision Making in Complex Environments

### Message from the Guest Editor

Researchers have long explored cognitive processing, including the traits that support effective decision making. Recent focus has shifted to how decision-making adapts in today's complex, unpredictable world—often described as VUCA (Volatile, Uncertain, Complex, Ambiguous). Global crises (climate, political, financial, etc.) often overlap, creating what is now called a “polycrisis.” This raises key questions: Which cognitive styles—intuitive or analytic—are most effective in fast-changing, high-stakes situations? The growing role of AI in decision-making adds further complexity. This Special Issue aims to explore how cognitive styles shape adaptive decision-making in demanding contexts, offering insights for current and future challenges.

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Jerrell Cassady  
Department of Educational Psychology, Ball State University, Muncie, IN  
47306, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

##### Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2  
(Development)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
