

## Special Issue

# Individual Differences in Narcissism: From Personality to Psychopathology

### Message from the Guest Editors

Narcissism, a personality trait characterized by grandiosity, self-focus, and a need for admiration, varies significantly among individuals. This special issue aims to explore the spectrum of individual differences in narcissism, from personality traits to pathological manifestations in Narcissistic Personality Disorder (NPD). It seeks to provide a comprehensive understanding of how narcissism varies among individuals, the factors influencing these differences, and the implications for personal, social, and professional functioning. This special issue will contribute to the field by:

- Providing a platform for multidisciplinary research on narcissism.
- Enhancing understanding of the complexity and variability of narcissistic traits.
- Informing professional practice with evidence-based insights.
- Highlighting the societal implications of narcissism in the modern world.

## About the Journal

### Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

---
