Stress and Children's, Adolescents' and Young Adults' Ways to Cope with It

Message from the Guest Editor

Stress can be caused by a variety of factors, namely from home, school, mass media and unfavourable peer environments. Children and young people face difficulties and different demands daily, which often exceed their remedial capabilities. Moreover, in this millennium, the threat of mass catastrophes in the world is much greater than in the past, and their effects are more potent and devastating. Young people who do not cope well with adversity and do not receive enough external support can suffer the mental and physical effects of stress for many years. Therefore, efforts and strategies to cope with stress in childhood and adolescence are central to understanding and preventing distress and psychopathology in adulthood. This Special Issue aims to develop the literature on stress effects and remedies for children, adolescents and young adults from an interdisciplinary perspective. Therefore, we welcome theoretical and empirical contributions that advance knowledge of the factors and mechanisms leading to positive health and well-being among youths. For more information, please visit: [Stress and Children's, Adolescents and Young Adults' Ways to Cope with It](#)

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
