## Behavioral Disorders, Coronavirus and the Nervous System

### Message from the Guest Editors

OVID-19 is a viral infection caused by SARS-CoV-2 with a rapid increase in the number of infected and deaths around the world from the first patient identified in December 2019. CNS infections are, in this pathology, one of the most critical problems of health, because patients frequently exhibit neurologic sequelae. Today, respiratory viruses have placed themselves as responsible for CNS pathologies and to date, several reports have described the association between respiratory viral infections and neurological symptoms, being the most frequently reported in status epilepticus, neurodegenerations, demyelinating diseases, and neurodevelopmental disorders, encephalopathies, and encephalitis, in any cases supported by cerebrospinal fluid analysis. All these views suggest that these pathogens can be spread throughout the body to reach the CNS at any moment. Thus, the current knowledge of the mechanisms and routes used by these neuroinvasive viruses' remains scarce, as well as information on the impact of commorbities, short- and long-term neurological disorders, as well as on the neurologic sequelae, in all cases relevant to this Special Issue.

### Guest Editors

Prof. Dr. Maria De los Angeles Robinson Agramonte
Dr. Dario Siniscalco
Dr. Ramiro Jorge Garcia Garcia

# About the Journal

### Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: https://www.mdpi.com/journal/behavsci. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

### Editor-in-Chief

Prof. Dr. Jerrell Cassady
Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

### Author Benefits

**High Visibility:**
indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

**Journal Rank:**
JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

**Rapid Publication:**
manuscripts are peer-reviewed and a first decision is provided to authors approximately 32 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
