

Special Issue

Action Research, Methods and Measures in Community Psychology—2nd Edition

Message from the Guest Editors

In 2023, we launched a distinctive Special Issue, entitled “Action Research, Methods and Measures in Community Psychology”. This pioneering collection of seven papers provided insightful perspectives on various aspects of well-being within a community psychology context, addressing factors that bridge individual and collective dimensions. To continue this momentum and further research within the community psychology framework, we are thrilled to announce the second edition of this Special Issue. This new edition is open to a wide variety of submissions, including empirical studies, reviews, meta-analyses, and brief reports. We welcome contributions employing any methodology and from researchers worldwide. On these bases, this second Special Issue welcomes the submission of all contributions that, from the perspective of community psychology, offer research or intervention advances, such as the application of new measurement tools, correlational, longitudinal, and qualitative studies carried out with particular populations, and applications of intervention techniques aimed at the prevention and promotion of well-being.

Guest Editors

Dr. Ciro Esposito

Dr. Immacolata Di Napoli

Prof. Dr. Fortuna Procentese

Prof. Dr. Caterina Arcidiacono

Deadline for manuscript submissions

31 August 2025
