Multidisciplinary Perspectives on Cognitive Processes Underpinning Resilience in Individuals Exposed to Adversity

Message from the Guest Editor

Exposure to adversity is an almost inevitable life experience. Whether acutely traumatic, chronic, or cumulative, adversity can have detrimental effects on mental health and wellbeing. However, there exists large variation in the degree to which individuals are affected by adverse experiences. When individuals demonstrate more positive outcomes than would be expected given the adversity they experienced, we call them resilient. Understanding the mechanisms through which individuals can demonstrate such resilient outcomes is critical to taking a strength-based approach to tackling today's worrying rise in mental health problems. While there is increased attention to the cognitive mechanisms that could contribute to resilience, there exists a wide scope for accelerating our understanding of resilience through multidisciplinary research which examines candidate cognitive mechanisms from a range of different perspectives. For this reason, this Special Issue aims to integrate diverse perspectives, methodologies, and knowledge bases from a variety of disciplines. https://www.mdpi.com/journal/behavsci/special_issues/DGG16H317V

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, Embase, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 32 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
