

Special Issue

Preventing and Mitigating the Psychological Harm of Cyberbullying

Message from the Guest Editors

The aims of this Special Issue are to publish research about cyberbullying. As we know, cyberbullying represents one of the greatest risks for adolescents, regardless of gender (Lee et al., 2018; Hinduja & Patchin, 2014), since they spend many hours online on social media (Livingston et al., 2011), which is their most common mode of interaction (Odgers & Jensen, 2020). Cyberbullying has major repercussions on a person's psycho-physical well-being (Messena & Everri, 2023) and can sometimes even lead to suicide (Buelga et al., 2022). Sharing results with the scientific community that can contribute to the fight against cyberbullying through the provision of preventive interventions could help provide a basis for future research, since the results in the literature are often inconsistent.

Submitted papers should address the risks linked to cyberbullying and the possible ways of intervening to prevent the onset of online violence, especially in light of the fact that the COVID-19 pandemic has led to a disproportionate use of social media among adolescents.

- cyberbullying
- time spent online
- online risks
- prevention
- psychological harm

About the Journal

Message from the Editorial Board

Editors-in-Chief

Prof. Dr. Gianluca Serafini

Department of Neuroscience, Rehabilitation, Ophthalmology, Genetics, Maternal and Child Health (DINOEMI), Section of Psychiatry, University of Genoa, 16132 Genoa, Italy

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 28.7 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2024).
