The Effects of Natural Environments on Human Health

Message from the Guest Editor

Dear Colleagues: We welcome submissions of papers involved in developing a better understanding of the relationship between natural environments and human health. We take a broad perspective of what constitutes human health and have moved past the more traditional "absence of disease" connotation to include an individual's holistic well-being. Likewise, we take a more comprehensive view of natural environments to include areas and landscapes that contain a variety of factors associated with the natural world. Thus, submissions focusing on the ways of connecting individuals to nature and digital and technologically-enabled environments are both welcome. Specific examples of topics include: historical connections between health and natural environments; health benefits and outcomes from the nature experience; sense of place in natural settings; urban and municipal natural landscapes and their contributions to health; negative health effects from natural environments; physical, psychological, neurological, cognitive, and behavioral effects from spending time in nature; physical activity in natural settings, etc.

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in Behavioral Sciences. Behavioral Sciences is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
