

Special Issue

Embodiment, Motor Control and Brain Injury

Message from the Guest Editor

The guest editor of this special issue welcome submissions on the following broad topics related to experimental or clinical neuroscience in human subjects. In particular, contributions in the areas of embodiment, motor control and attention functions are most welcome. Specifically, (1) motor control and motor learning in humans, (2) cognitive function including attention in humans, (3) sense of ownership or agency in humans, (4) motor control and cognition in brain injury patients such as stroke. (5) the relationship between changes in body image or embodiment and motor and cognitive function after brain injury, and (6) rehabilitation approaches that address the above issues.

Guest Editor

Prof. Dr. Shu Morioka
Department of Neurorehabilitation, Kio University, Nara, Japan

Deadline for manuscript submissions

closed (30 April 2021)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Jerrell Cassady
Department of Educational Psychology, Ball State University, Muncie, IN
47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2
(Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
