

## Special Issue

# Hypnosis and the Brain: Emotion, Control, and Cognition

### Message from the Guest Editors

This Special Issue, Hypnosis and the Brain: Emotion, Control, and Cognition, invites original research, reviews, and theoretical contributions exploring the neural, psychological, and behavioral mechanisms underlying hypnosis. Hypnotic state offers a unique window into consciousness, emotion regulation, cognitive control, and suggestibility. We encourage submissions from neuroscience, psychology, psychiatry, and interdisciplinary fields that examine how direct verbal suggestions modulate brain function, attention, memory, pain perception, emotional processing, and self-control. Studies employing neuroimaging (e.g., fMRI, EEG), psychophysiological, or computational methods to investigate hypnotic susceptibility, dissociation, and cognitive flexibility are particularly welcome.

### Guest Editors

Dr. Barbara Schmidt

Institute for Psychosocial Medicine, Psychotherapy and Psychooncology, Jena University Hospital, 07743 Jena, Germany

Dr. Anoushiravan Zahedi

Department of Psychology, University of Münster, 48149 Münster, Germany

### Deadline for manuscript submissions

15 February 2026

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Jerrell Cassady  
Department of Educational Psychology, Ball State University, Muncie, IN  
47306, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

##### Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2  
(Development)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
