

Special Issue

Picturing Morality from Multidisciplinary Perspectives

Message from the Guest Editors

Morality is a multi-disciplinary issue that is discussed in many disciplines, including philosophy, ethics, sociology, psychology, management, political science and so on. At the individual level, morality comprises how people master the moral rules as the core of human civilization, form reasonable moral reasoning thinking, cultivate intuitive moral feelings, and carry out social behaviors in line with the requirements of moral norms. At the interpersonal level, morality means harmonious coexistence and positive altruism. From the organizational context level, morality means a positive ethical climate. At the national and social level, morality means the positive development power of society as a whole and means the stability and self-mobility of the social structure. The multidimensional nature of morality determines that it is an important subject concerned by multiple disciplines. Therefore, we welcome theoretical and empirical contributions from different disciplines to open up a multidisciplinary understanding of moral issues.

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 32 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
