Special Issue

Schizophrenia, the Great Imitated Syndrome Mimicked by Many Imitators

Message from the Guest Editors

We invite you to submit articles to our Special Issue of Behavioral Sciences titled "Schizophrenia, the Great Imitated Syndrome Mimicked by Many Imitators". Schizophrenia is mimicked by many medical and surgical conditions, some of them great imitators, and others small. The list of these mimickers is very long, and many clinicians, academics and researchers unfortunately have no resources to exclude all of them properly. Classic historical concepts like secondary schizophrenia, pseudo-schizophrenia and schizophrenia-like psychosis have been proposed for decades, as many authors worldwide have recognized that, at least in some patients, schizophrenia could be symptomatic of another medical or surgical condition. Nevertheless, we are afraid these efforts have little impact on the daily praxis of clinical, academic and research settings. Therefore, we propose a Special Issue totally dedicated to the differential diagnosis of primary schizophrenia, true schizophrenia, or idiopathic schizophrenia versus secondary schizophrenia, pseudo-schizophrenia or schizophrenia-like psychosis.

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: https://www.mdpi.com/journal/behavsci. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady
Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:
indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:
JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 32 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
