Novel Psychological Perspectives on Traumatic Bereavement: From Research to Practice

Message from the Guest Editors

Traumatic bereavement—the sudden or violent death of a close other—is a major global public health concern. In addition to being the single greatest contributor to the PTSD burden worldwide, traumatic bereavement is associated with a substantial risk of other negative mental and behavioral health consequences, such as prolonged grief and depression. Noting the pervasive and considerable impact of traumatic bereavement, research on this tragic experience has grown in the last decade. We encourage submissions that focus on under-studied correlates or factors that influence both deleterious and adaptive outcomes of traumatic bereavement, under-represented loss experiences, as well as novel approaches to treatment and support that show promise. We are therefore particularly interested in research on traumatic bereavement among individuals who identify as a minority, the role of social determinants of health, the impact of substance use, fatal drug-related overdose, and specific treatment modalities.

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
