Special Issue

Theoretical Issues and Statistical Methods in Neuropsychological Diagnosis

Message from the Guest Editors

Diagnosis of single deficits, and of dissociations between deficits, is key in both clinical and cognitive neuropsychology. While statistical techniques for neuropsychological diagnosis have shown considerable development in the last few decades, neuropsychological interpretation requires further attention. This Special Issue will bridge the gap between the rich statistical literature and the neglected theoretical nodes. Space will be provided for both theoretical and statistical studies, provided that the proposed statistical models are fully justified in terms of the inferences they allow on mental processes. This Special Issue seeks contributions on these and other topics, all relating to neuropsychological diagnosis of single deficits and/or dissociations. Methods that are clearly linked to the cognitive systems under study are particularly welcome. For more information please see: Theoretical Issues and Statistical Methods in Neuropsychological Diagnosis

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: https://www.mdpi.com/journal/behavsci. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady
Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:
indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:
JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 32 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
