

Special Issue

Eating Behaviours in Diverse Populations

Message from the Guest Editors

Socio-cultural and diversity factors such as socioeconomic status, environmental influences, cultural norms, and ethnicity play a significant role in shaping and maintaining eating behaviours and food choices, which can often contribute towards excessive weight gain. With the goal to broaden our understanding of the complex psychological and socio-cultural influences on eating behaviours, and to inform effective, culturally sensitive strategies that promote healthier eating practices across diverse populations, this Special Issue welcomes theoretical/review contributions, as well as empirical studies including cross-sectional, longitudinal, and experimental designs. Potential topics include, but are not limited to, psychological interventions aimed at promoting healthier eating behaviours (e.g., mindfulness, mindful eating, gratitude, self-compassion, and acceptance) and the impact of socio-cultural factors in assessing eating patterns (e.g., cross-cultural differences in eating behaviours, minoritised groups and eating behaviours, and socio-economic status and eating behaviours), as well as eating behaviours in clinical groups.

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, Embase, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 32 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
