

Special Issue

Reading, Writing, and Arithmetic: Typical and Atypical Cognitive Development

Message from the Guest Editors

The goal of this Special Issue is to increase our understanding of how children acquire the proverbial three Rs: reading, writing, and arithmetic. Several cognitive skills such as phonological awareness, orthographic knowledge, and rapid automatized naming have been recognized as fundamental for reading and writing development. Likewise, number sense and counting have been pointed out as crucial for the development of arithmetic skills. Recent research has even suggested a considerable overlap in the cognitive predictors of reading, writing, and/or arithmetic skills. Clarifying cross- and within-domain predictors is important since they may carry significant implications for cognitive developmental theories and practice. Within this scope, we welcome contributions from research groups worldwide, focusing on typical and/or atypical acquisition of reading, writing, and arithmetic skills. We intend to select new empirical research and studies that use a systematic framework that has not been published elsewhere. Research issues may be addressed employing quantitative methodologies or provide a systematic review on a topic of the three Rs.

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
