

## Special Issue

# The Role of Protein Complexes in Neurodevelopmental Disorders

### Message from the Guest Editors

Many protein complexes have been reported by researchers that they play critical roles in brain development, and abnormal levels of these complexes lead to behavioral deficits in offspring in animal models; thus, they are implicated in neurodevelopmental disorders. Investigating the role of protein complexes in neurodevelopmental disorders can improve the mechanisms of these disorders and may improve the therapeutics of related diseases. In light of these premises, this Special Issue aims to present advanced studies about protein complexes involved in neurodevelopmental disorders. We welcome all submissions related to the topics mentioned above.

## About the Journal

### Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

### Author Benefits

#### High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, Embase, PsycInfo, and other databases.

#### Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 32 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
