

Special Issue

Sex Desire, Sexuality and Sexual Dysfunction

Message from the Guest Editors

We would like to invite papers to this Special Issue of the Behavioral Sciences that will focus on sex desire, sexuality and sexual dysfunction. The association between sexuality and general health has been demonstrated. Healthy lifestyles promote sexual expressions and a fulfilling intimate life can be a facilitator of physiological and psychological well-being. Nevertheless, physiologic changes that occur during the life and illness might negatively affect sex desire and individual's capability for sex. Healthcare professionals are in a unique position to provide information and counseling in order to promote and improve patients' sexual lives and health, although many of them have difficulties in discussing sexuality with their patients. For this Special Issue, we welcome original research, reviews and commentaries that provide new knowledge about determinants of sexual desire, relationship between sexual satisfaction and quality of life, sexual experiences in patients with chronic illness or disabled people, healthcare professionals experiences, sexual dysfunction as well as other issues related with sexuality.

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady
