Special Issue

Recent Advances in the Treatments in Movement Disorders

Message from the Guest Editors

We are inviting submissions of articles to this Special Issue of the journal of *Behavioral Sciences*, which is a peer-reviewed, open access journal that publishes original research articles as well as review articles in all areas of behavioral sciences. We will collect state-of-the-art articles discussing new treatment modalities in patients with movement disorders. Contributions on the following themes are welcome:

- Innovative, novel deep brain stimulatio,n and neuromodulation techniques
- Improvements in diagnosis and novel treatment modalities in movement disorders.
- Challenges and future directions in the treatment of neurodegenerative conditions.
- Wearable technologies in movement disorders

We hereby invite papers that present original research on the topics above and hope to receive many high-quality submissions. Please do not hesitate to contact me if you have any questions about the journal or manuscript submission.
