

Special Issue

Psychology of Health Behavior Change

Message from the Guest Editors

It has been argued that attempts to modify health behavior should be based on the insights of social cognition theories. These theories predict and explain health behavior using a parsimonious set of constructs. The identification of relevant behavioral determinants can then inform the development of efficacious interventions. However, criticisms met by social cognition theories include the limited variance explained in behavior and the ineffectiveness of theoretically informed interventions. Therefore, this Special Issue calls for original studies and short communications that advance understanding about the appropriateness of social cognition theories in promoting behavior change. Papers should concern the development, application, and evaluation of theory. Novel approaches and new insights are also welcomed. This Special Issue will provide important recommendations associated with the application of theory and how these insights can lead to health behavior change.

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, Embase, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 32 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
