

Special Issue

Attention-Aware Interaction in Augmented Reality

Message from the Guest Editor

The use of Augmented Reality (AR) has increased across various industries and optimizing human-computer interaction in these environments has become crucial. This Special Issue focuses on attention-aware interaction systems in AR, exploring how systems can intelligently adapt to users' cognitive load, attentional focus, and contextual needs. Attention-aware systems bridge the gap between human cognitive abilities and the demands of complex AR interfaces. By dynamically adjusting content presentation and interaction modalities based on real-time assessments of user attention, these systems enhance usability, reduce cognitive overload, and improve task performance. This Special Issue aims to inspire further research and innovation, paving the way for AR applications that are immersive, interactive, and intuitively aligned with human cognition.

About the Journal

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Editor-in-Chief

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, Embase, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 32 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2025).
