

Special Issue

Current Challenges and Developments in Personality Disorders: New Theories and Models, Testing and Psychosocial Interventions in Special Settings

Message from the Guest Editors

We want to provide space in this Special Issue for new theoretical and empirical personality models and personality disorder concepts. In addition, the first psychological tests for the assessment of personality disorder traits according to the ICD-11 have already been presented. In particular, questions arise as to how, for example, dissocial, narcissistic, histrionic or psychopathic personality traits can be reflected in the ICD-11 model. Of course, manuscripts do not only have to deal with the ICD-11, but may also focus on competing or alternative personality models. Special attention will be given to specific settings (e.g., prison, sexual and violent offender treatment, recidivism prognosis, forensic and psychiatric institutions, aftercare outpatient clinics, etc.). We welcome creative and new (critical and systematic reviews, qualitative and quantitative) research works on the above-mentioned topics. personality traits personality disorders ICD-11 and DSM5 borderline personality disorder antisocial disorder psychopathy treatment of personality disorders assessment of personality (disorders)

About the Journal

Message from the Editorial Board

Editors-in-Chief

Prof. Dr. Gianluca Serafini

Department of Neuroscience, Rehabilitation, Ophthalmology, Genetics, Maternal and Child Health (DINOGMI), Section of Psychiatry, University of Genoa, 16132 Genoa, Italy

Prof. Dr. Jerrell Cassady

Department of Educational Psychology, Ball State University, Muncie, IN 47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 28.7 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2024).
