

Special Issue

Advances in Psychiatric Diagnosis Past, Present and Future

Message from the Guest Editors

Dear Colleague, Psychiatric diagnosis has had a long history of scientific investigation and application, with periods of rapid change, instability, and heated controversy. This Special Issue will review the history of psychiatric nomenclature and explore current and future directions in psychiatric diagnosis through the various versions of accepted diagnostic criteria and supporting research literature. It will explore the phenomenological, nosological, biological, and clinical bases of psychiatric diagnosis both broadly and more specifically (for several diagnostic categories). This Special Issue's extensive, in-depth treatment of psychiatric diagnosis will equip the field to appreciate the complexities of psychiatric diagnosis as it pushes forward toward future advancements.

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Jerrell Cassady
Department of Educational Psychology, Ball State University, Muncie, IN
47306, USA

Author Benefits

High Visibility:

indexed within Scopus, SSCI (Web of Science), PubMed, PMC, PsycInfo, and other databases.

Journal Rank:

JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2
(Development)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 29.6 days after submission; acceptance to publication is undertaken in 3.4 days (median values for papers published in this journal in the first half of 2025).
