

## Special Issue

# Featured Papers in Malting, Brewing and Beer Section

### Message from the Guest Editors

The Special Issue “Featured Papers in Malting, Brewing and Beer Section” will present a collection of feature papers on recent developments in malting and brewing processes considering the use of traditional and alternative raw materials, conventional and non-conventional technologies, microorganisms, innovative processes, and emerging technologies to control and improve the production of beer. This Special Issue is seeking papers that feature original research as well as review articles. The journal offers a high-quality peer review and rapid publication process. Submissions to this Special Issue are now open and will remain so until December 31, 2021. Invited papers may be considered for a full or partial waiver of the publication fee. If you would like to be invited to contribute to this Special Issue, please send the (tentative) title and abstract of your potential paper/review to the listed below. We look forward to receiving your contribution.
