Special Issue

Feature Papers in BioChem

Message from the Guest Editors

As the Associate Editor-in-Chief of the esteemed journal *BioChem* (ISSN 2673-6411), I am excited to announce the launch of an inaugural Special Issue titled "Feature Papers in *BioChem*". This Special Issue aims at showcasing exceptional research in the diverse and interconnected fields of molecular biology, cell biology, structural biology, nucleic acid biology, chemical biology, synthetic biology, disease biology, biophysics, metallomics (or inorganic biochemistry), and theoretical biochemistry. As an international and interdisciplinary open-access journal, *BioChem* is dedicated to providing a platform for publishing high-quality reviews, research articles, communications, and letters that contribute to the advancement of scientific knowledge...

About the Journal

Message from the Editor-in-Chief

BioChem is an international and interdisciplinary open access journal encompassing the fields of molecular biology, cell biology, structural biology, nucleic acid biology, chemical biology, synthetic biology, disease biology, biophysics, and theoretical biochemistry. It publishes reviews, research articles, communications, and letters. Our aim is to encourage scientists to publish their experimental and theoretical research in as much detail as possible.

Editor-in-Chief

Prof. Dr. Buyong Ma

School of Pharmacy, Shanghai Jiaotong University, Shanghai, China

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, EBSCO and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 33.9 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
