Message from the Guest Editors

BEIS-2021 program focuses on biomedical engineering and bio-instrumentation. The conference is planned to provide three days of productive presentations and discussions on **biomedical engineering education**, biomaterials, tissue and regenerative engineering, health monitoring devices, **image processing**, biosensor technology, wearable health devices, radiography, novel drug delivery systems, etc. **Big data networking**, AI research and their application in biomedical engineering and health care are also to be discussed at the conference. The special issue editors are among the list of high profile plenary and invited speakers at the conference.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPus / SciFinder](#), [Inspec](#), and [other databases](#).

Journal Rank: JCR - Q2 (Engineering, Biomedical)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
