

Special Issue

Advances in Dental Implant Surgery

Message from the Guest Editors

Bioengineering is pleased to announce a Special Issue focused on dental implant surgery. Dental implant surgery is a rapidly growing field with new insights and technologies emerging every year. This Special Issue aims to provide a platform for researchers to share their latest findings and developments in the field of dental implant surgery. We invite authors to submit original research articles, reviews, and case reports on all aspects of dental implant surgery. Topics of interest for this Special Issue include but are not limited to:

- Novel techniques for dental implant placement;
- Advances in implant materials and design;
- Imaging modalities for implant surgery planning;
- Complications and their management in implant surgery;
- Rehabilitation of complex implant cases;
- Clinical outcomes and long-term follow-up studies.

Submissions will be peer-reviewed and accepted articles will be published online in *Bioengineering*. This is a great opportunity for researchers to showcase their work and contribute to the advancement of dental implant surgery. We look forward to receiving your submissions and thank you for your interest in this Special Issue.

Guest Editors

Dr. Motohiro Munakata

Dr. Yasuo Takeuchi

Dr. Minoru Sanda

Dr. Makoto Shiota

Deadline for manuscript submissions

closed (10 September 2023)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
