Special Issue

New Insights into the Development of In Situ Bioprinting for Tissue Engineering

Message from the Guest Editors

This Special Issue on "New Insights into the Development of In Situ Bioprinting for Tissue Engineering" will focus on original research papers and comprehensive reviews, reporting the most innovative works in the in situ bioprinting field that deal with both the technological and biological aspects of this topic. Topics of interest for this Special Issue include, but are not limited to, the following:

- Development of innovative robotic/handheld systems for in situ bioprinting;
- Path planning methods for robotic-based in situ biomaterial deposition;
- Combination of multiple bioprinting technologies to achieve multi-scale and multi-material in situ biofabrication;
- Al-based strategies for the severity assessment, localization and regeneration planning of anatomical defects;
- Development and optimization of biomaterials for in situ deposition and tissue regeneration.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
