Biomedical Image Processing and Sensing Applications

Message from the Guest Editor

Biomedical image processing and sensing applications play a crucial role in advancing healthcare by providing essential tools for diagnosis, monitoring, and treatment. These technologies utilize algorithms to enhance and analyze images from medical imaging modalities such as MRI, CT, and ultrasound, allowing for the improved visualization of anatomical structures and abnormalities. Additionally, biomedical sensing applications involve the development of sensors and devices to collect and interpret physiological data, enabling the real-time monitoring of vital signs and disease progression.

Guest Editor

Dr. Tariq Mahmood Khan

School of Computer Science and Engineering, UNSW, Sydney, NSW 2052, Australia

Deadline for manuscript submissions

closed (30 June 2025)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
