

Special Issue

Advancements in Bioelectronics: From Beaker to Wearable to Implantable Devices

Message from the Guest Editor

Bioelectronics is a fast-expanding science that combines electronics with biology, with far-reaching implications for healthcare, biotechnology, and beyond. This Special Issue aims to highlight the most recent advances and innovations in bioelectronics, with a focus on wearable electronics, implantable electronics, "more than Moore" electronics, and the creation of bioelectronic devices. Topics of interest include but are not limited to:

- Wearable electronics: progress in wearable biosensors for continuous health monitoring.
- Flexible and stretchable electronics for wearable applications.
- Integration of sensors and actuators into wearable devices for individualized healthcare.
- Wireless communication and power supply systems for wearable electronics.

This Special Issue intends to promote interdisciplinary collaboration, encourage debate, and speed up the translation of bioelectronics advances into practical applications that benefit human health and well-being.

Guest Editor

Dr. Aneesh Koyappayil

School of Integrative Engineering, Chung-Ang University, Seoul 06974, Republic of Korea

Deadline for manuscript submissions

20 September 2025

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
