

Special Issue

Recent Advances in Cardiac MRI

Message from the Guest Editors

This Special Issue is dedicated to showcasing cutting-edge methods in cardiac MRI acquisition and processing, bridging the gap between fundamental research and clinical application. Topics to be explored include, but are not limited to, the following:

- Innovative cardiac MRI reconstruction techniques, focusing on the development and clinical integration of AI-driven algorithms.
- Innovative cardiac MRI post-processing applications, including denoising, segmentation, and super-resolution.
- Techniques and applications of novel fast imaging acquisition methods.
- Advanced techniques and applications for first-pass perfusion cardiac MRI.
- Techniques and applications in non-contrast parametric mapping.
- Development of new imaging biomarkers.
- Development and applications of novel cardiac MRI sequences, such as 4D flow sequences.
- Novel clinical practices of cardiac MRI.
- Development and applications of non-breath-hold and non-ECG-gated cardiac MR techniques.
- Novel contrast agents for cardiac MRI.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
