

## Special Issue

# Application of Artificial Intelligence in Complex Diseases

### Message from the Guest Editor

The application of Artificial Intelligence (AI) in the medical field is poised to revolutionize healthcare, particularly in managing complex diseases such as cancers and glaucoma. Integrating AI technologies promises to enhance diagnostic accuracy, personalize treatment plans, and improve patient outcomes. This Special Issue of Bioengineering on "Application of Artificial Intelligence in Complex Diseases" aims to bring together contributions from experts worldwide to discuss advancements and innovations in this domain. Topics of interest include AI-driven diagnostic tools, predictive modeling, AI in medical imaging, and the ethical implications of AI in healthcare. This issue will provide a platform for researchers and clinicians to share their latest findings, methodologies, and insights, fostering a collaborative environment to address the challenges and opportunities presented by AI in medicine.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
