Neuroimaging Techniques for Central Autonomic System: Methodologies and Applications

Message from the Guest Editors

In this Special Issue, we welcome the submission of research articles and reviews that focus on neuroimaging techniques to study the central autonomic system in health and disease. We aim to bring together researchers and clinicians to share their latest findings in this exciting and challenging field of neuroimaging. We invite authors to submit their original research, review articles, and methodological papers related to both healthy volunteers and clinical populations.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.
