

## Special Issue

# Recent Progress in Biomedical Image Processing

### Message from the Guest Editors

The aim of this Special Issue on "Recent Progress in Biomedical Image Processing" is to provide a platform for researchers to showcase their latest research findings and advancements in the field of biomedical image processing. The issue will cover a broad range of topics related to biomedical image processing, including image acquisition, analysis, visualization, and interpretation. The goal is to present the latest techniques and methodologies that have been developed to address challenges in biomedical imaging, including those related to diagnosis, treatment, and research. In particular, the Special Issue aims to highlight the use of advanced technologies such as machine learning and artificial intelligence in biomedical image processing. Overall, the Special Issue aims to contribute to the advancement of biomedical imaging technologies and improve the diagnosis and treatment of various diseases. It will provide a valuable resource for researchers, clinicians, and engineers working in the field of biomedical image processing.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
