

## Special Issue

# Biomaterials for Cartilage and Bone Tissue Engineering

### Message from the Guest Editor

In clinical orthopedics, the successful regeneration of weight-bearing bone defects and critical-sized cartilage defects is still challenging. A valid approach to this is tissue engineering. This Special Issue is dedicated to recent developments in biomaterials for scaffolds for repairing and regenerating tissues such as bones, cartilage, tendons, meniscus, and ligaments, from synthesis to production methods. Topics of interest for this Special Issue also include cell–surface biomaterials interactions and bone cell mechanotransduction. I hope that this issue will give new insights to the scientific community in this ever-expanding research field. The scientific contributions on these topics may be submitted in the form of original articles or reviews. I look forward to receiving your manuscripts.

### Guest Editor

Dr. Francesca Scalera

Institute of Nanotechnology-CNR NANOTEC, Lecce, Italy

### Deadline for manuscript submissions

closed (15 March 2024)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

#### Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
