

Special Issue

Advanced Tissue Engineering Scaffolds

Message from the Guest Editors

This Special Issue is open to any contribution which addresses the theme of advanced scaffolds, especially those that impact on the need to bring effective technologies to produce the widest public benefit.

Topics include, but are not limited to the following:

Keywords:

- Scaffold biomaterials including proteins, polysaccharides, polymers, metals, ceramics and composites
- Scaffold fabrication techniques, including electrospinning, phase separation and 3D printing
- Structure–function relationship studies in tissue engineering
- Reconstructive and therapeutic tissue engineering, cell encapsulation, and disease biology models
- Decellularisation and recellularization technologies in tissue engineering
- Specialized topics including organ-on-chip models, modular tissue engineering, interfacial/junctional tissue engineering.

Guest Editors

Dr. Julian F. Dye

Institute of Biomedical Engineering, University of Oxford, Oxford OX3 7DQ, UK

Dr. Naresh Kasoju

Division of Tissue Culture, Department of Applied Biology, Biomedical Technology Wing, Sree Chitra Tirunal Institute for Medical Sciences and Technology, Thiruvananthapuram, Kerala 695012, India

Deadline for manuscript submissions

closed (30 June 2018)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.2 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
