

## Special Issue

# Bioactive Ceramics in Regenerative Medicine: From Bone Grafts to Dental Implants

### Message from the Guest Editor

Bioactive ceramics have emerged as one of the most promising classes of materials in regenerative medicine, particularly in applications related to bone and dental tissue repair. Their unique ability to interact with biological tissues, promote osteointegration, and support the regeneration of hard tissues makes them indispensable in the design of next-generation bone grafts and dental implants. This Special Issue of *Bioengineering*, entitled “Bioactive Ceramics in Regenerative Medicine: From Bone Grafts to Dental Implants”, is dedicated to showcasing recent advances in the development, characterization, and clinical application of bioactive ceramic materials. We aim to provide a comprehensive overview of the latest innovations that bridge the gap between material science and clinical outcomes. Examples of relevant subjects include the following: Design and synthesis of novel bioactive ceramics; Bioactive coatings for orthopedic and dental implants; Composite and hybrid materials involving ceramics; Three-dimensional printing and fabrication techniques for ceramic scaffolds.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Biomedical)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).
